HEATHERS

FLEECE
SPRING 2023

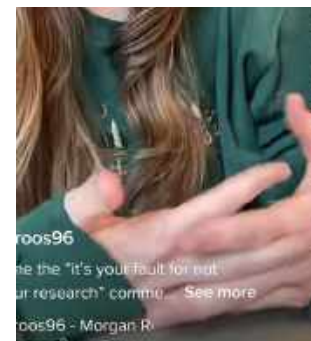

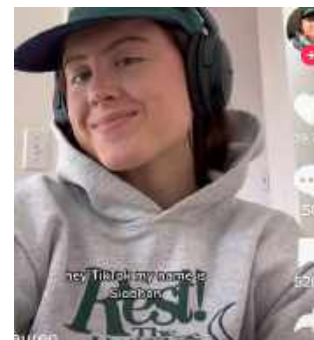

Heathers are always in trend, seeing less here with warmer weather, but the color is seen often within outerwear.

SAGE

FLEECE
SPRING 2023

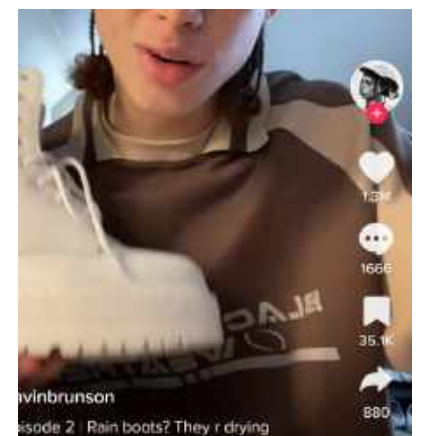

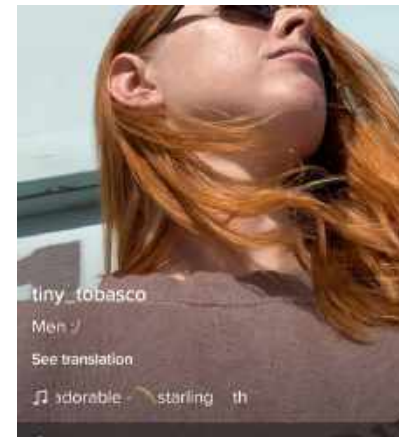

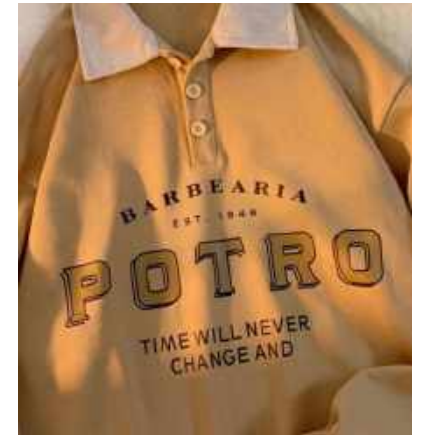

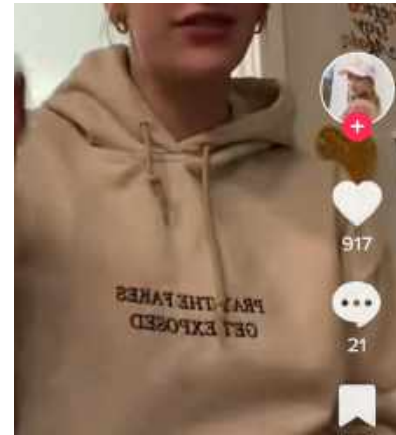

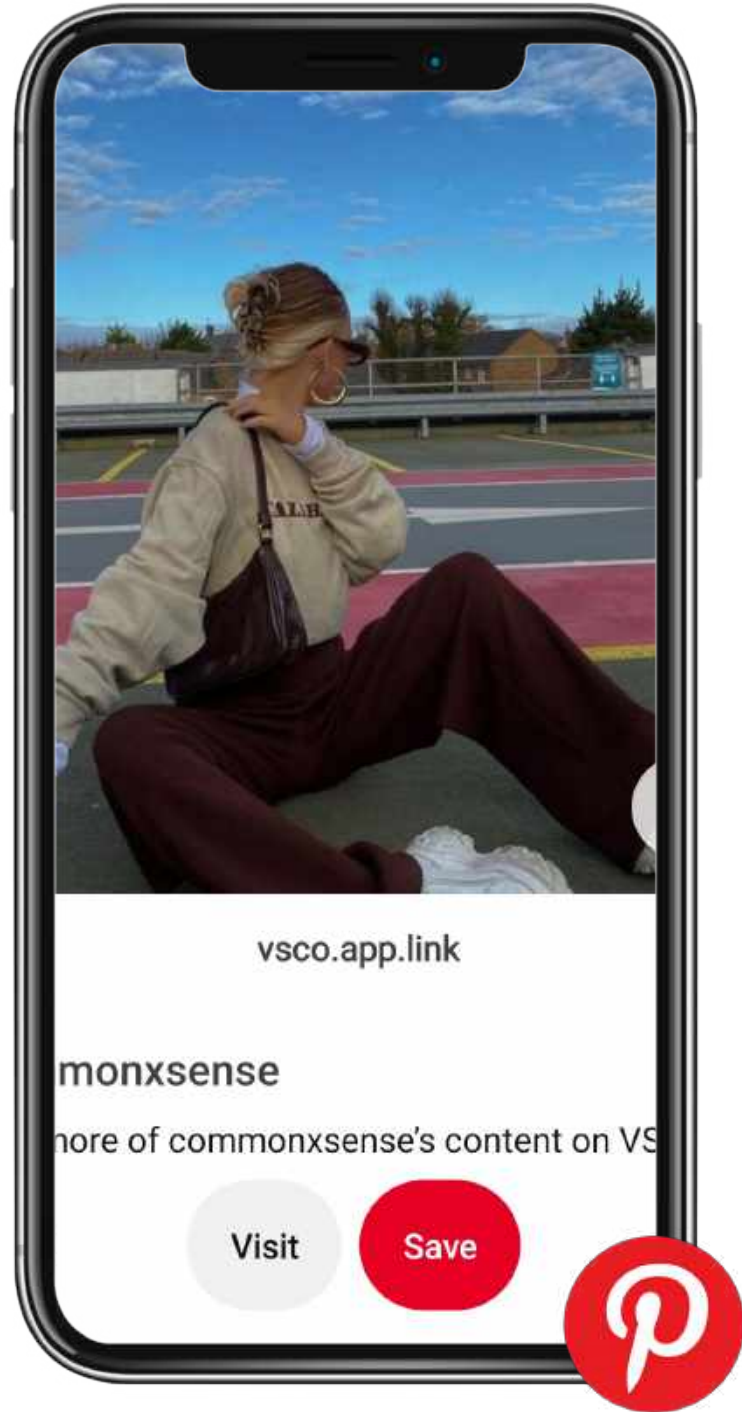

I love this green color, the muted, rustic and often paired with creams & yellows. Seeing a lot of this in both womens ad menswear.

LATTE CORE

FLEECE
SPRING 2023

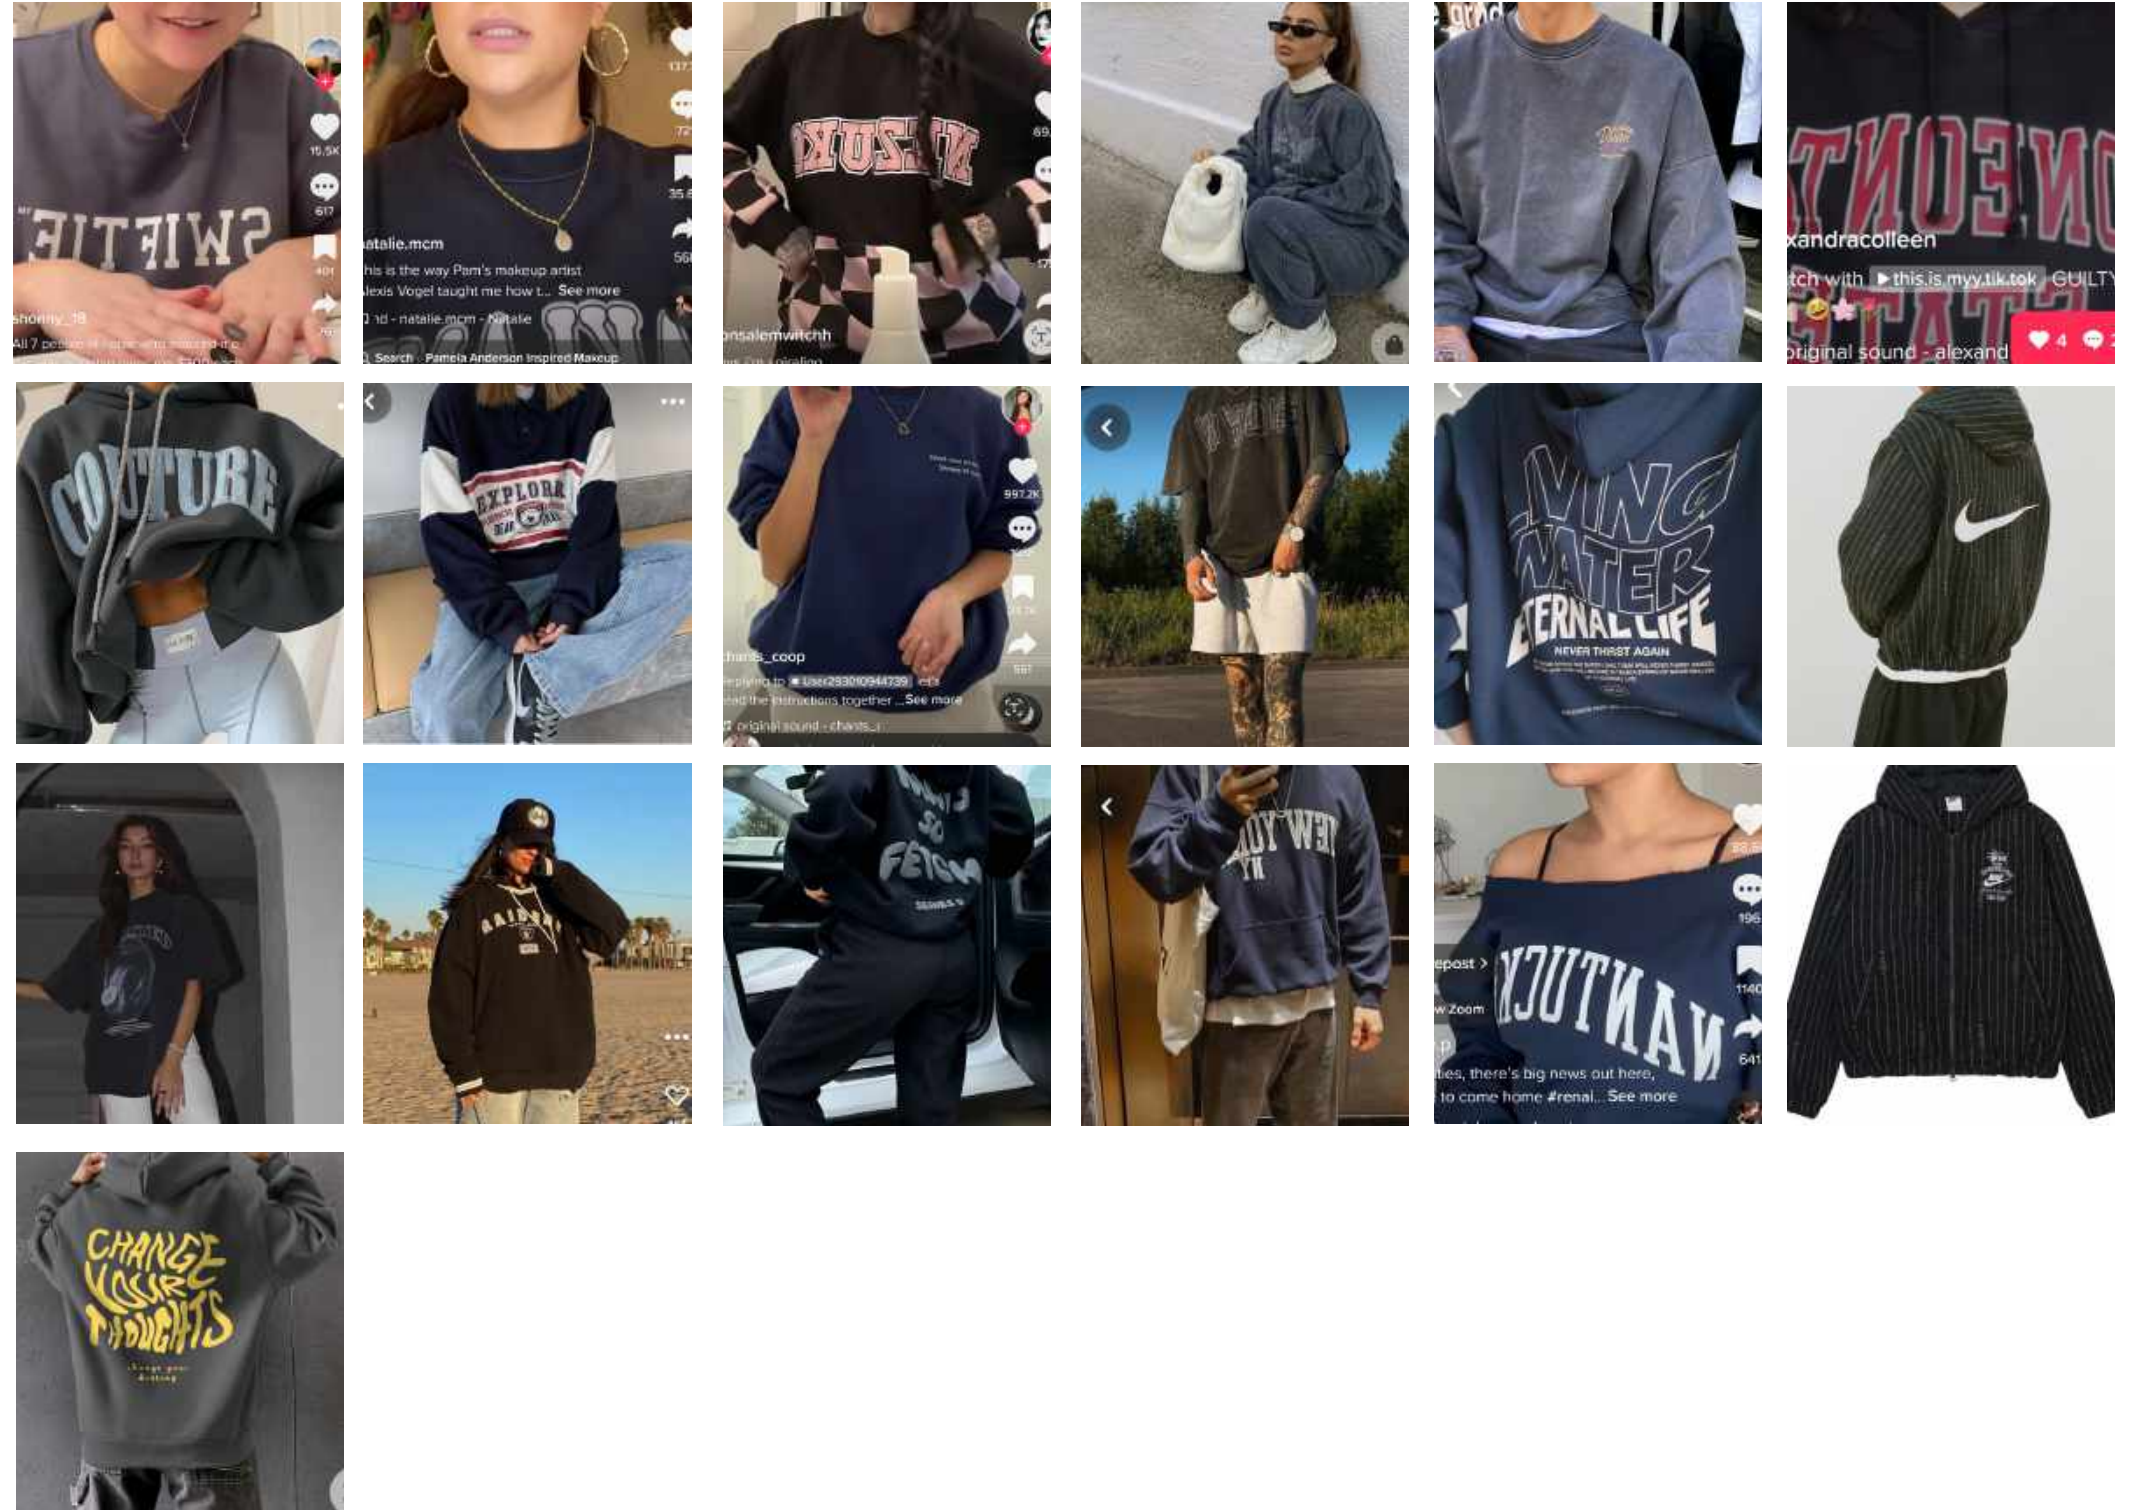

Creams + browns are being paired in unique ways within both mens and womens wear.

DARKS

FLEECE
SPRING 2023

Dark washes, greys and navy's are pretty equal in levels, so making sure a dark neutral is in the line up is evident.

LIGHTS

FLEECE
SPRING 2023

The lightest colors here are mostly cream based, but we wanted to make sure the light yellows and pastel pinks are also having their moment.
